

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) is a European Union Regulation on chemicals and their safe use (EC 1907/2006), which entered into force on 1 June 2007. The regulation has been amended several times, with the latest updates applicable as of 21/01/2025.

Schneider Digital GmbH supports the aim of REACH in improving the protection of human health and the environment through better and earlier identification of the intrinsic properties of chemical substances. We are committed to complying with all applicable REACH requirements and to providing our customers with relevant information about substances in our products.

Under REACH, the registration of substances used in the manufacturing of articles does not apply to Schneider Digital GmbH operations.

Schneider Digital GmbH products are classified as “articles” under REACH Article 3(3) and do not release substances during normal use. Suppliers of articles are required to provide recipients with information on Substances of Very High Concern (SVHC) if they are present in a concentration above 0.1% weight by weight (w/w) at the article level. Our products do not contain any of the SVHCs listed in the Candidate List, last updated on 21/01/2025.

In general, we do not use in our products any Asbestos, Ozone Depletion Substances, Radioactive Substances, REACH Annex XVII, Persistent Organic Pollutants, Fluorinated Greenhouse gases, Mercury Regulation (EC) 2017/852 & Biocidal Products.

We work closely with our suppliers to ensure that any SVHC findings are communicated to the European Chemicals Agency (ECHA) as necessary to ensure compliance with REACH.

Schneider Digital GmbH assures its customers that our products are in full compliance with current REACH requirements.

Applicable Products (Schneider Digital GmbH Item Number)

- 16911 Stereo-Monitor 3D GlobeView 84” UHD
- 17374 Stereo-Monitor 3D GlobeView 32” SE Full HD
- 18123 Stereo-Monitor 3D GlobeView 49” UHD
- 19080 Stereo-Monitor 3D GlobeView 55” UHD
